Comparison of +10−Year Direct Fiscal Returns Across Tertiary Spending Definitions
Comparing per−student ratios, observed expansions, real PPP dollars per student, and budget % of GDP
1. Non−Resource Tax / GDP (pp)
2. Direct Income Tax / GDP (pp)
3. Direct Income Tax Share (pp)
Tertiary Spending Exposure Definition
1. Per−Student Tertiary Ratio Regime (% of GDP per person)
2. Observed Per−Student Expansion (>=2.5 pp increase over wave)
3. Real PPP Dollars per Student (removes GDP denominator)
4. Public Tertiary Budget % of GDP (removes student headcount)
+0.45 pp (P=0.86)
+0.34 pp (P=0.95)
+1.48 pp (P=0.97)
+0.53 pp (P=0.82)
+0.81 pp (P=1.00)
+2.33 pp (P=0.99)
+0.94 pp (P=0.98)
+0.39 pp (P=0.97)
+0.80 pp (P=0.81)
+0.17 pp (P=0.70)
+0.11 pp (P=0.73)
+0.94 pp (P=0.91)
